WRITE YOUR OWN CHAPTER OF STLCOP HISTORY

As one of the oldest colleges of pharmacy in the nation, we have a rich history of leading in pharmacy and health care education. But what makes the College special is the people who make up our community.

Since our founding in 1864, leaders and innovators, like you, have added their own chapters to our story. They are expert practitioners, educators, researchers, entrepreneurs and executives, and they make up the fabric of our community and the network that will support you as you enter the profession.

At STLCOP, you will learn and grow in one of the nation’s premier biomedical communities. Through our partnerships with neighboring institutions, you’ll have access to elite educational, professional and research experiences with leading health care professionals. You will utilize state-of-the-art technology in unparalleled facilities—and you’ll do it with support from a tight-knit community that feels like home.

Your time at the College will prepare you to positively impact patients and society, and be a leader in the profession and your community.

Florida Kansas Virginia
Georgia Ohio Wisconsin
57% Missouri residents
CELEBRATING 150 YEARS

St. Louis College of Pharmacy is the third-oldest college of pharmacy in the nation and the first established west of the Mississippi River. As an independent college of pharmacy, we focus on providing a premier pharmacy education and improving patient care.

We’re committed to educating world-class pharmacists. Our curriculum combines liberal arts and sciences with a professional program leading to a Doctor of Pharmacy (Pharm.D.) with an integrated Bachelor of Science (B.S.).

Nearly 1,400 students from 32 states and 10 countries are currently enrolled at the College. Our growing alumni network includes more than 7,000 living alumni in 48 states and 14 countries.

In the St. Louis region, three out of four practicing pharmacists are graduates of the College.

A PREMIER BIOMEDICAL COMMUNITY

The College is located on nine acres in the Washington University Medical Center, one of the nation’s leading biomedical complexes. The medical center is in the heart of the Central West End (CWE) neighborhood. The pedestrian-friendly CWE is home to a collection of local shops, restaurants, bars, salons and other businesses within a historic residential district.

Just blocks from the College you’ll find the Cortex Innovation District, known as “the Midwest’s premier innovation hub of bioscience and technology research, development and commercialization.”

Forest Park, just a five-minute walk from campus, is one of the largest urban parks in the country. Its 1,371 acres are home to the Saint Louis Art Museum, Missouri History Museum, Saint Louis Science Center and Saint Louis Zoo, which all offer free entry. The park is also home to The Muny, the country’s largest outdoor theater, which features Broadway-style musical productions all summer long.
COLLABORATIVE RESEARCH

Our location helps us create partnerships and research centers that offer educational, research and pharmacy practice opportunities. It also adds to the energetic culture on campus that promotes innovation and leadership. It’s a setting few colleges of pharmacy in the world can rival.

At STLCOP, you will learn and practice during hands-on experiences and rotations in some of the nation’s top health care institutions.

NEIGHBORING INSTITUTIONS

• Barnes-Jewish Hospital
• Washington University School of Medicine in St. Louis
• Alvin J. Siteman Cancer Center
• St. Louis Children’s Hospital
• Goldfarb School of Nursing

Cortex is home to more than 150 resident companies.
• BioGenerator Accelerator Labs
• Cofactor Genomics
• DuPont Nutrition & Health – Protein Solution
• FDA Division of Pharmaceutical Analysis

RESEARCH CENTERS

The College is creating and expanding research opportunities for both students and faculty. We have established several academic and research centers on campus, with plans for more.
• Center for Clinical Pharmacology
• Center for Health Outcomes
• Center for Interprofessional Practice and Education at Washington University Medical Center
• Office of Research on Aging

CAMPUS EXPANSION PROJECT

Exciting changes take place every day as we continue to transform our campus to better fit the needs of our students. We have nearly completed the College’s largest campus construction project to date. Our new facilities bring technology into the classroom and create new opportunities for team-based learning and collaboration.

Phase I was the six-story, 213,000-square-foot, state-of-the-art Academic Research Building (ARB) and library that was completed in summer 2015. With the latest technology and student-focused features throughout, the ARB has quickly become a favorite place to work and study.

Phase II is the 193,000-square-foot Recreation and Student Center and residence hall. The building, scheduled to open in early 2017, will house new dining and recreation facilities, student fitness center, athletic and intramural gymnasiums, as well as academic and personal support resources provided in the Student Success Center.

GUIDE TO CAMPUS BUILDINGS

1. ACADEMIC AND RESEARCH BUILDING

Features research and clinical skills laboratories, technologically advanced classrooms, the library, and plenty of flexible gathering and forum space.
You’ll also find the:
• School of Pharmacy
• Auditorium
• Offices of Admissions, Financial Aid and the Registrar

ALUMNI HOUSE (NOT FEATURED ON MAP)

Home to the Offices of Alumni Relations and Development, located about three blocks from campus.

2. JONES HALL

Home to classrooms, laboratories and administrative offices.
• Office of the President
• School of Arts and Sciences
• Technical Support Center
• Business Office

3. RECREATION AND STUDENT CENTER (COMING SOON)

Scheduled for completion in early 2017. Will house all student services, a 220-bed residence hall, new dining facilities, and meeting rooms.
This is where you’ll find:
• Academic advising and tutoring
• Student Success Center and Counseling Center
• Recreation Center (with an intramural gymnasium, a fitness center and an indoor track)
• Intercollegiate Athletics and a competition gymnasium

4. RESIDENCE HALL

Includes 330 beds. The first floor is also home to the Parkview Café.
When Phase II is complete, we will have added **MORE THAN 400,000 SQUARE FEET OF SPACE** for living and learning.

The new Recreation and Student Center, like the Academic and Research Building, will be **BUILT TO MEET LEADERSHIP IN ENERGY AND ENVIRONMENTAL DESIGN (LEED) STANDARDS** in order to reduce energy use and incorporate green building practices.

**PHASE II FEATURES**

**193,000 SQUARE FEET, OPENING IN EARLY 2017**

**FIRST FLOOR**

- 350-seat dining hall
- Reception area
- 1,100-seat competition gymnasium

**SECOND FLOOR**

- Meeting and study rooms
- Intramural gymnasium

**THIRD FLOOR**

- 10,000-square-foot recreation center
- 200-meter indoor track

**FOURTH FLOOR**

- Career Center
- Culture and Campus Life offices
- Student Success Center and Counseling Center
- Multicultural and interfaith spaces

**FIFTH-SEVENTH FLOORS**

- 220-bed residence hall
ACADEMIC EXCELLENCE

EDUCATING FUTURE PHARMACY LEADERS

Our academic programs, leading to a Doctor of Pharmacy with an integrated Bachelor of Science, incorporate coursework across a variety of subject areas to educate the whole person. This combination of a liberal arts and professional education will develop skills that will serve you in practice. Your education will prepare you for the expanding role of pharmacists on patient-centered interprofessional health care teams.

Our program also provides flexibility. You can customize your plan of study through elective courses. Elective Focus Areas such as clinical services, public health and research allow you to tailor your education to your career goals.

PREPARING FOR THE PHARM.D. PROGRAM

Progressing into the professional program requires the completion of undergraduate prerequisites. After completing the prerequisites, many students enter the four-year professional program without taking the PCAT. The first professional (P1) year also fulfills requirements for the integrated bachelor’s degree.

Depending on previous college-level credit, course placements and scheduling needs, time to complete your prerequisites may vary. Many students complete the undergraduate program in three years, allowing them to explore their interests and take advantage of all that campus has to offer. Some students bring existing credit to the College and complete the prerequisites in as few as two years. The College accepts Advanced Placement (AP), International Baccalaureate (IB) and dual credit.

Visit stlcop.edu/admissions to review a full list of admission requirements and prerequisites for the professional program.
ACUTE CARE
Help care for a wide range of patients as part of an interprofessional team.
- Inpatient setting
- Hospital pharmacy

AMBULATORY CARE
Promote patient health and manage chronic conditions by spending one-on-one time with patients, conducting interviews, performing physical assessments and providing recommendations and education.
- Outpatient clinic
- Physician’s office

COMMUNITY CARE
Build patient relationships and serve as a community medication expert.
- Community pharmacy

HEALTH SYSTEM
Learn about basic hospital pharmacy functions, other areas that interact with pharmacy and medication policy issues.
- Hospital pharmacy
- Health system pharmacy

PATIENT CARE SELECTIVE
Work with a pharmacist who specializes in particular diseases or conditions, focusing on areas such as infectious disease or critical care.
- Inpatient setting
- Outpatient clinic

ELECTIVES
Focus on a specialized practice area (e.g., psychiatry, organ transplant or pediatrics) or setting (e.g., hospice or long-term care), or explore areas of pharmacy such as drug discovery, research, industry or managed care.
- Variety of settings

LEARNING THROUGH REAL-WORLD EXPERIENCES
The profession of pharmacy is growing and changing. Your experiences inside the classroom will equip you with the knowledge you need while hands-on learning opportunities develop your skills to work and interact with diverse patient populations. These experiences will help you put your knowledge into practice.

PHARMACY PRACTICE EXPERIENCES
IPPEs (Introductory Pharmacy Practice Experiences) are courses that will introduce you to the profession. You’ll do everything from assisting with dispensing prescriptions to creating a medication management plan for a patient.
You’ll spend your final professional year at the College completing eight five-week APPE (Advanced Pharmacy Practice Experience) rotations. Your rotations will immerse you in your role as a pharmacist and prepare you for practice.

After completing your Pharm.D., you may choose to continue your education.

PHARMACY RESIDENCY programs provide specialized, in-depth training.

Through the College’s partnerships, you may also pursue a GRADUATE CERTIFICATE IN BUSINESS ADMINISTRATION or a MASTER OF BUSINESS ADMINISTRATION.

DIRECT ENTRY
In our direct-entry program, students are admitted for the undergraduate and professional programs. Assuming all progression requirements are met, your admission to the undergraduate program secures your place in the first professional year. There’s no need to apply again for the Pharm.D. program.

As long as progression requirements are met, many students enter the Pharm.D. program without taking the PCAT.

WHY A BACHELOR’S DEGREE?
Earning an integrated bachelor’s degree with your Pharm.D. will provide flexibility and access to new opportunities.
While completing your bachelor’s degree, you may discover your passion leading you into another area of health care. After your Pharm.D., you may choose to seek a postgraduate residency, graduate or other advanced degree, and many programs require a bachelor’s degree for admission.
A LEARNING COMMUNITY

In our curriculum, students progress as a cohort, completing courses largely in sequence and working together. When our students reflect on their time at STLCOP, they often share how much they appreciated knowing that they had a built-in support structure.

As students, you will learn, study, overcome challenges and celebrate milestones – and you’ll do it all together. Along the way, you’ll build lifetime bonds and create memories with your classmates.

A SUPPORTIVE ENVIRONMENT

We care about student success, both inside and outside the classroom. From the creation of a new Multicultural Center to the construction of a student-centric Recreation and Student Center, we’re taking active steps to provide our students with support resources.

STUDENT SUCCESS CENTER

The Student Success Center is a place where you will find support services to help you succeed and grow academically and personally. While you’re away from home, the center is a place where you’ll always find open doors, listening ears and open minds.
A team of staff members will help you overcome challenges, learn about yourself and discover your passions. Center services and resources include:

- **Academic Support** (academic coaching, tutoring, mentoring, disability support, undergraduate academic advising)
- **Counseling Center**
- **Residential Life**
- **Student Services** (student organizations and leadership, New Student Orientation)

**LIBRARY**

The two-story, 33,000-square-foot library is located at the center of campus connected to the Academic and Research Building. The library offers educational resources including subject databases, journals, magazines, newspapers and audiovisual materials. The library is also home to the Norton Writing Center, a resource to provide writing support and contribute to student success.

In addition to reference materials, the library provides a comfortable place to read and study. Group study rooms equipped with flat screen televisions and white board walls are available for team learning. The library's online services allow you to access and explore offerings anytime, anywhere.

**CONNECTIVITY AND CONVENIENCE**

Every student receives a fully equipped, tablet-style notebook computer. Your computer will allow you to access the College’s course management system, Moodle, from anywhere and easily download classroom content and course materials.

Your computer will also allow you to seamlessly connect and engage in our interactive classrooms, where faculty and students can share screens and collaborate in real time.

The Technical Support Center, located on the first floor of Jones Hall, provides technical and network support to all students at no cost.
CAMPUS LIFE
Over our more than 150-year history, our students have created and embraced a few traditions.

1. Throw watermelon rinds as far as you can during the Watermelon Bash.

2. Help a freshman unload their mini fridge during Move-In Day.

3. Pose for a photo with Morty after the Founders Day 5K.

4. Recite the pledge of professionalism as you begin the professional program at the White Coat Ceremony.

5. Show your siblings around during Family Weekend.

6. Celebrate Founders Day with a big piece of cake to commemorate the College’s rich history.

7. Shake off the end-of-the-semester blues at the Holiday Dance.

8. Volunteer at STLCOP C.A.R.E.S. and educate patients on how to take care of their health.

9. Play outside and soak up some sunshine during Spring Fling.

10. Show off your skills and talents during the annual Variety Show.
A COMPLETE COLLEGE EXPERIENCE

At St. Louis College of Pharmacy, you’ll benefit from top-notch academic experiences and all the campus life activities you would expect to find at any private college. You’ll work hard in the classroom. Outside the classroom, you’ll have opportunities to explore your interests, follow your passions and build lifelong friendships.

STUDENT ORGANIZATIONS

There are more than 60 student organizations on campus to help build a better you. Whether you enjoy outdoor adventures, gaming or releasing your inner artist, there’s an organization on campus to get involved in.

Student organizations are designed to provide social, professional and service opportunities to enhance your life and education. With so many choices, you’re sure to find a group – or several – that will welcome you, help you get involved and make you feel at home on campus.

INTRAMURALS AND CLUB SPORTS

If you’re passionate about sports, intramurals are perfect for you! These teams will allow you to experience the fun, social and health benefits of team sports in a way that fits into your life and schedule. Created by students for students, clubs include cycling, dance, golf, indoor soccer, roller hockey and slow-pitch softball.

INTERCOLLEGIAL ATHELTICS

The College is a member of the American Midwest Conference (AMC), a Division I conference of the National Association of Intercollegiate Athletics (NAIA). Student-athletes compete in twelve sports at the intercollegiate level. Encouraging a high level of competition while maintaining academic excellence as the highest priority is at the center of our athletic program.

Visit stlcop.edu/campuslife to learn more about campus activities.

BUILDING COMMUNITY

Being with people who share your interests and challenges can make anything more comfortable and fun. Adjusting to college life can be daunting, but doing it with others eases the transition. Your residential experience will help you get established on campus, create relationships and prepare for a successful college experience.

RESIDENCE HALL LIFE

Living in a residence hall provides students with opportunities to relax, study and socialize without commuting to and from campus.

Upperclassmen serve as resident assistants (RAs) and live on site to help students transition seamlessly to College. A full-time residence hall coordinator also lives on site and is available to assist students.

OUR COMMITMENT TO CAMPUS SAFETY

Campus safety is always a top priority. The College works to foster a safe and secure climate for learning and living. The Office of Public Safety incorporates community policing practices, security officer services, state-of-the-art technology and strategic partnerships with local police and neighboring institutions.

As an additional security measure, students, faculty and staff must use their ID cards to gain access to campus buildings after hours. Card access also allows us to lock down campus buildings in the case of an emergency.

STLCOP Alerts is a free emergency notification system that issues text and email alerts. At New Student Orientation, we’ll walk you through the sign up process and help you add your phone number, as well as any additional numbers.

COMING SOON!

In early 2017, we’ll open the new Recreation and Student Center. The fifth–seventh floors will house a brand new residence hall with 220 beds.

JOIN OUR TEAM

If you’re a student-athlete, you may be eligible to receive scholarships for participating in NAIA Division I Athletics. Talk to your admissions representative to learn more.
EXPANDING HORIZONS

At St. Louis College of Pharmacy, we take a broader view of the world. As a pharmacist, you will have the ability to impact patients and society at home and abroad, and we’ll make sure you’re prepared academically, professionally and personally.

Throughout the program, we focus on cultural awareness and the importance of interacting with people from diverse backgrounds. It makes our students better health care providers – and truly educated people.

CELEBRATING DIVERSITY

Our Office of Diversity and Inclusion organizes events that celebrate diversity and provide educational, professional and social support.

In May 2016, the College opened a new Multicultural Center (MCC) in our Residence Hall. Programming through the MCC is designed to support learning and facilitate culturally aware conversations.

Through this programming, the MCC will fulfill its mission to “continuously build an inclusive, non-discriminatory, safe and welcoming environment for the entire STLCOP community through education that fosters purposeful dialogues and student support in the areas of inclusion and diversity.”

As a student, we will encourage you to celebrate your background and appreciate the diverse experiences of your fellow classmates.

WE’RE IN THIS TOGETHER

Each year, students, faculty, staff and alumni volunteer thousands of hours in activities that improve the community.

From working in Swaziland (a small African country facing an HIV/AIDS epidemic) to helping elderly St. Louisans better understand their medication, everything we do is focused on educating world-class pharmacists who will positively impact their patients and communities. As a student, you will have the opportunity to give back, serve and lead—both at home and abroad.
St. Louis College of Pharmacy students, faculty and staff give back through community engagement and service activities.

- Through **STLCOP C.A.R.E.S.**, an annual service day, students perform a variety of volunteer activities across St. Louis.
- Through the **St. Louis Regional Asthma Consortium**, students provide support to St. Louis-area children with asthma by staffing a mobile clinic.
- At the **Saint Louis Science Center**, students oversee activities and experiments that help kids learn about pharmacy and health care.
- Each October, the College partners with JDRF to host **Boo Fest**, a free on-campus carnival for children with diabetes that provides Halloween fun without the candy.

**INTERNATIONAL LEARNING OPPORTUNITIES**

Through the International Service Learning course, you can travel internationally and provide service to communities in need.

The Office of International Programs offers opportunities for you to travel and provide patient-centered care through APPE rotations in countries around the world.

Students have completed thousands of hours of service and traveled more than 205,000 miles to provide patient care abroad.

The College also maintains partnerships with international institutions that give you opportunities to expand your horizons. These include Nelson Mandela Metropolitan University in South Africa and Trinity College in Ireland.

**SAFE MEDICATION DISPOSAL**

Through the St. Louis Medication Disposal Initiative and the Missouri Prescription Pill and Drug Disposal Initiative, students like you make a direct impact in our local community.

During a four-hour collection window in April 2016, students set a new record collecting nearly 30,000 pounds of medication through the St. Louis Medication Disposal Initiative.

By helping patients safely dispose of expired or unused medications, students help to reduce adverse medication events and the abuse of prescription drugs.

In recognition of the College’s commitment to St. Louis and service, we were named to the **president’s higher education community service honor roll** by the Corporation for National and Community Service in 2013 and 2014.
CAREERS IN PHARMACY

Today’s pharmacists are key players in a wide variety of health care settings. Working with physicians, nurses, physical therapists, and other health care professionals, pharmacists play a crucial role in patient medication management and safety.

Diverse practice settings exist, from Native American hospitals to the U.S. Food & Drug Administration to correction facilities. STLCOP educates entrepreneurs, infectious disease and oncology pharmacists, clinical practitioners, hospital administrators, biomedical researchers, corporate executives, national pharmacy association leaders, and many more experts in leading-edge areas.

PUT YOUR PASSION INTO PRACTICE

Interested in building your own business? Dream of curing HIV or Ebola? Want to help animals live a better life? You can do all that and more in pharmacy.

A PERSONAL APPROACH

Although there are costs involved in getting a college education, earning a pharmacy degree is an investment in your future. A STLCOP degree gives you the foundation to change lives and offers you a lifetime return on your investment.

Our Office of Financial Aid is committed to helping you navigate the financial aid application process and securing the aid necessary to pursue a degree.

WHY PHARMACY?

U.S. and World Report ranked pharmacist among the “Best Jobs” of 2016:

- #18 in “best paying jobs”
- #21 in “best health care jobs”
- #36 in the “100 best jobs”

These rankings cite indicators of a healthy job market:

- **$120,000** median starting salary
- 1.6% unemployment rate
- 3% projected growth in demand for pharmacists by 2024

* Optional

We have the third lowest tuition among the 64 private colleges of pharmacy.

For the four years of the professional program, our students have, on average, 32% less debt than the national average.

AACP, 2016

FAFSA OPENS
October 1
PRIORITY SCHOLARSHIP DEADLINE
December 1
We’re here to help you take the next steps toward your education at STLCOP. We take a holistic admissions approach, taking your entire admissions file and credentials into consideration. Visit stlcop.edu/apply to begin your application.

Our direct-entry program means that students are admitted for the program’s duration. There is no need to apply again for entrance into the professional program as long as progression requirements are met.

STEP-BY-STEP GUIDE TO APPLICATION

The following materials must be submitted for admission consideration:
- Completed application (online at stlcop.edu/apply or through the Common App)
- Nonrefundable $55 application fee
- Official high school transcripts
- Official ACT or SAT score reports
- Recommendations (one science teacher, one math teacher and one counselor)
- Personal essay (500 words, can submit online)
- Supplemental forms (Statement of Commitment, Technical Standards, and Early Decision Agreement, if applicable)

All written documentation must be sent to:
Office of Admissions, St. Louis College of Pharmacy, 4588 Parkview Place, St. Louis, MO 63110

*Additional items required for international students.

Visit stlcop.edu/admissions for more information.
At STLCOP, any applicant who fulfills one of the following criteria is considered a transfer applicant.

- Is currently attending college at another institution
- Has completed some college coursework at another institution
- Has completed a degree at another institution

The point at which you enter the program depends on the coursework you have already completed. Transfer applicants will be considered based on their academic credentials as well as the availability of space.

WHAT ABOUT THE PCAT?

The PCAT is not required to enter the undergraduate program, but will be a progression requirement for students who will complete two or fewer full-time semesters at STLCOP prior to starting the professional program.

Students applying for transfer admission into the first professional (P1) year of the program will be required to take the PCAT and must apply through the Pharmacy College Application Service (PharmCAS).

Not sure where to start?
Contact the Office of Admissions at 314.446.8328 (800.2.STLCOP toll free) or admissions@stlcop.edu.
THE GATEWAY TO THE WEST

St. Louis, best known for the 630-foot tall Gateway Arch, is one of the most livable cities in the Midwest. The city is home to more than 300,000 residents living in 79 distinct neighborhoods, and the area is home to almost 3 million people.

St. Louis is home to two professional sports teams—the St. Louis Cardinals and the St. Louis Blues. The city is known for being a great place for sports fans, and you’ll find plenty of opportunities to grab a game.

Across the city, more than 100 parks offer spaces to play sports, see a concert or just enjoy the outdoors. Forest Park, just blocks from campus is almost twice as large as Central Park in New York City.

As a student, you’ll benefit from living and working in this vibrant, friendly city.

VISIT CAMPUS

To get a real feel for St. Louis College of Pharmacy, we want you to visit campus. Schedule your visit in advance, and we will plan a tour that is tailored to you. Visit stlcop.edu/visit to schedule.

If you have questions, contact us at admissions@stlcop.edu or 314.446.8328 (toll free at 800.2.STLCOP).

Visit stlcop.edu/maps for printable maps and directions to campus.

MORE OPPORTUNITIES TO VISIT

The College hosts preview and reception days throughout the year to give you the chance to see campus, get to know us and connect with current students.

To see the schedule and learn more, visit stlcop.edu/visit.
St. Louis College of Pharmacy

Forest Park

Missouri Illinois
HISTORY
Founded in 1864, St. Louis College of Pharmacy is one of the oldest and largest colleges of pharmacy in the nation. Members of the first board of trustees included pharmacists, physicians, and business leaders such as Missouri Botanical Garden founder Henry Shaw and John O’Fallon, nephew of explorer William Clark.

ACADEMICS
The College admits students directly from high school and combines practical application with study in the arts and sciences in a program leading to a Doctor of Pharmacy with an integrated Bachelor of Science. Students may also apply to transfer into the undergraduate years or the first professional year.

CAMPUS
Only five miles from the Gateway Arch, St. Louis College of Pharmacy is located in the city’s Central West End, adjacent to the nationally recognized Washington University Medical Center, which includes Barnes-Jewish Hospital, Washington University School of Medicine in St. Louis, Alvin J. Siteman Cancer Center, Goldfarb School of Nursing and St. Louis Children’s Hospital.

EXPERIENTIAL LEARNING
Three out of four practicing pharmacists in the St. Louis metro area are graduates of St. Louis College of Pharmacy, providing current students with local mentors. The College also offers innovative introductory and advanced pharmacy practice experiences.

ACTIVITIES AND ATHLETICS
Students are involved in more than 60 clubs and organizations. Student-athletes participate in NAIA Division I in 12 sports.

St. Louis College of Pharmacy’s Doctor of Pharmacy (Pharm.D.) and integrated Bachelor of Science (B.S.) degrees are accredited by the Higher Learning Commission of the North Central Association of Colleges and Schools. The Pharm.D. is also accredited by the Accreditation Council for Pharmacy Education.
